## **BARGAINING REPORT**

**June 11, 2008**

The CWA Bargaining Committee met with the Company yesterday in another intense session of negotiations. In spite of several hours of questioning the Company on some of the data they have provided us, we are still not hearing anything that substantiates their claim that the Union's proposal puts an insurmountable financial burden on them. The Union still has many more questions that need to be answered by the Company. Bargaining will resume again today.

The Committee appreciates your continued support.
