

Hello Everyone,

Chris Shelton, Ron Collins, Jim Short & IBEW New England and New Jersey met with the Company yesterday. The Unions told the company that there are problems with the current collective Bargaining Agreements. We advised the company they would need to meet with the Union to discuss these problems before we agree to any "new" round of early negotiations.

We will be talking with the Regional Bargaining Committees to determine our options. I will keep you update after we talk with the Regional Bargaining Committee.

Thanks,

Ron Collins
