

CWA/IBEW MOBILITY BENEFITS

BARGAINING REPORT

June 12, 2008

The Unions and the Company met today. The Company gave details of their prescription drug plan which would impose increases in the cost of medications for active and retired members. In some examples, the increases would cost some retirees most of their income. The Company's medical and prescription demand would shift tens of millions of dollars of cost to our members. The meeting adjourned and the Unions will spend the remainder of today working on bargaining demands.

While the company has only brought the Medical and Drug plans to the table it is their intent to take back years of hard fought for progress. Our medical and Drug plans are the result of many contracts and even strikes. We to must be willing to do the same things we did to get them in order to keep them.

Mobilize!!!
