

MidAtlantic Regional Bargaining Report #49

October 26, 2011

The Mid-Atlantic Bargaining Committee and the Company had off table discussions today regarding the establishment of subcommittees to work through major issues. There are still no changes to report and the message to the membership remains the same with regard to the participation in mobilization by every member, both active and retired. Your bargaining committee continues to fight and do whatever is necessary to obtain a fair contract for the membership and the membership must continue this fight back home in all work locations. We must not allow Verizon and its corporate greed to destroy the middle class in this country.

Stay Focused! Stay United! Stay Mobilized!
